

## SY-6 COMPACT OVAL FLUORESCENT BULKHEAD

Standard, Indoor-Outdoor Use, Clear

Recreated from the original 1950s engineering drawings, the SY-6 bulkhead is compact, cosy and corrosion resistant. Fit it anywhere to create a soft, romantic ambiance, from stately homes to homely front rooms.

## CREATE YOUR SPEC

Create your ideal SY-6 specification, with edison screw or bayonet cap lamp holder and a robust casing finished any way you fancy.

## ADAPTABLE ANYWHERE

The compact size, and flexible mounting points of the SY-6 allows them to be placed in both indoor, and outdoor settings, anywhere you want to create soft, mood lighting.

Place them anywhere from around your bathroom mirror, to above an external archway. These beautiful bulkheads light up corridors, side passageways, and can even be mounted on fence posts along driveways, creating a romantic mood while you're parking your Bentley.

## STYLE WITH SUBSTANCE

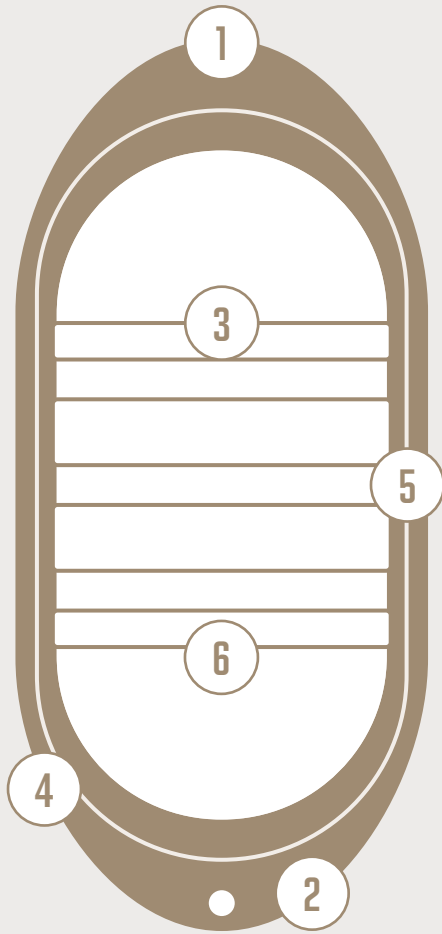

Each SY-6 light fitting is hand-cast, using premium materials, with a solid aluminium case that will last decades, rather than years. They're also fully waterproof, and corrosion resistant, ideal for both wet, and dry environments. Style with substance, old chap.

## GLOW YOUR MIND

The beautiful thick glass diffuser of each SY-6 bulkhead spreads a soft glow of light across any setting. Each light also comes with a ceramic lamp holder that can be fitted with a standard E27/ B22 fluorescent bulb, or even a smart bulb, for a remote light show!

# THE DEVIL'S IN THE DETAILS

## 1. 3 X POWER ACCESS PORTS

The SY-6 Bulkhead lighting range has power connection cable access at both rear, top, and bottom - choose the option that tickles your fancy.

## 2. MODULAR MOUNTING POINTS

End-lugs on the SY-6 range are designed to accommodate future clip-on accessories, extending the life of your lamp - that's a nod to sustainability, and style.

## 3. HAND PRESSED & BLOWN GLASS

With a thick, hand pressed and blown glass diffuser that features decorative ribs, and a Coughtrie brand mark, this is one stylish range of light fittings that refuse to blend in with the rabble.

## 4. TIMELESS STYLING

The simple, oval shape of the SY-6 Bulkhead light fitting is elegant and timeless yet fits with a range of different settings.

## 5. HAND CAST ALUMINIUM CASING

The corrosion resistant aluminium casing of the SY-6 Bulkhead light fitting has been hand cast by skilled craft workers in Glasgow. We've been doing it for 80 years, and we don't intend to stop any time soon!

## 6. PORCELAIN LAMP HOLDER

Your SY-6 can be supplied with a Bayonet Cap, or Edison Screw lamp holder. You can also fit it with a Smart Bulb, to connect the lamp to your smart home control system, should you desire.

## FINISH FABULOUSLY

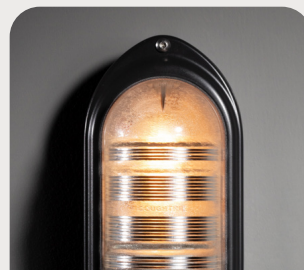

The SY-6 can be finished with a number of different options, to suit your flights of fancy, from chip-resistant paint in a range of colours, to natural silver, finished with a clear, protective lacquer for a raw, industrial look.

Each light can also be anodised with a weathered bronze finish, for rustic, antique effect. The choice is endless. The choice is also yours.

And with our bespoke finishing service, you'll also be able to specify a unique RAL colour, for powder coating.
