# FALL IN LOVE AT FIRST LIGHT

## ROCK YOUR WORLD

Our elegant SY-6 lamp opens a range of flexible possibilities for moody but majestic indoor lighting. Fitted with a rocker switch, and over moulded plug, the lamp can be used wherever you have, or can create, a mains power socket, whether that's adorning a bookshelf, bedside table, or mantelpiece, in a residential, or commercial setting.

The lamp can also be wall mounted, using the wall mount points within the casing, building a bespoke lighting scheme for any project.

## DAPPER YET DURABLE

Each lamp is hand cast in Glasgow, using premium materials that include a solid aluminium case with a beautiful, thick ribbed glass diffuser that casts a soft glow of light in any indoor setting. An over-moulded plug, and solid brass cable gland will also protect the lamp and your interiors, from accidental tail wagging, or small finger tugging!

## YELLOW & MELLOW

The lamp's thick glass diffuser has been hand crafted to evenly spread soft light across any indoor setting. The SY-6 Bulkhead lamp also comes with a ceramic lamp holder that can be fitted with any standard E27/ B22 fluorescent bulb, or smart bulb, for a remote control light show to treasure. Spiffing!

# THE DEVIL'S IN THE DETAILS

## 1. RUGGED PLUG & CORD

The SY-6 lamp features an over-moulded plug and 2.4m cord with on-off rocker switch that's compatible with any standard 240V power socket, easy peasy!

## 2. SOLID BRASS CABLE GLAND

A solid brass cable gland secures and seals the power cord within the casing of the lamp, preventing accidental pull out by over enthusiastic tail -waggers, or inquisitive little fingers accessing the inside of the lamp casing.

## 3. HAND PRESSED & BLOWN GLASS

The lamp's thick, hand-blown glass diffuser has distinctive decorative ribs, and is marked with the iconic Coughtrie brand mark. Glass with class.

## 4. SCRATCH SAFE

The soft silicone and felt feet on the underside of our iconic Bulkhead lamp protect your furniture from scratches - from fine mahogany, to flat pack.

## 5. HAND CAST ALUMINIUM CASING

The corrosion resistant aluminium casing of the SY-6 Bulkhead light fitting has been hand cast by skilled craft workers in Glasgow. We've been doing it for 80 years, and we don't intend to stop any time soon!

## 6. PORCELAIN LAMP HOLDER

Your SY-6 can be supplied with a Bayonet Cap, or Edison Screw lamp holder. You can also fit it with a Smart Bulb, to connect the lamp to your smart home control system, should you desire.

## FINISH FABULOUSLY

The SY-6 can be finished with a number of different options, to suit your flights of fancy, from chip-resistant paint in a range of colours, to natural silver, finished with a clear, protective lacquer for a raw, industrial look.

Each light can also be anodised with a weathered bronze finish, for rustic, antique effect. The choice is endless. The choice is also yours.

And with our bespoke finishing service, you'll also be able to specify a unique RAL colour, for powder coating.
