

SY-6 COMPACT OVAL LED BULKHEAD

Standard, Indoor-Outdoor Use, Clear

Featuring energy-efficient LEDs, our SY-6 LED Bulkhead casts a brighter, whiter more modern glow than the 1950s original. Compact, corrosion-resistant and dependable it's ideal for outdoor use where visibility is of the utmost importance.

CREATE YOUR SPEC

Choose from a range of different casings to create the ideal finish for your SY-6 Bulkhead. You can also create your ideal LED specification, adding presence detection to optimise when your light is in use, or Emergency 3hr battery back-up for piece of mind in power cuts.

FALL IN LOVE AT FIRST LIGHT

A BULKHEAD WITHOUT BOUNDS

The flexible mounting points and compact size of the SY-6 Bulkhead allow it to be placed both indoors and outdoors, in a range of locations that might include mounting on posts to light driveways (park your Rolls Royce in style), overhead above doorways or garages, and illuminating side passageways.

STYLE WITH STRENGTH

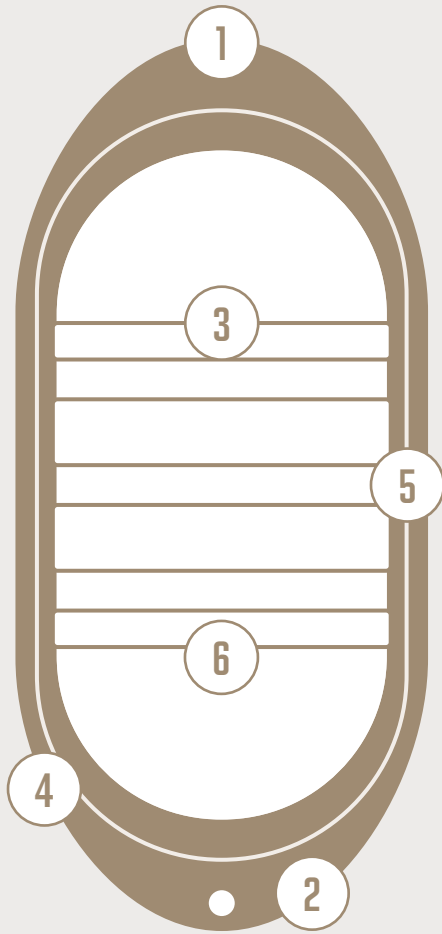

Each SY-6 light is hand-cast using premium materials, including a solid aluminium casing that proudly features a thick, ribbed glass diffuser. Each light is fully waterproof, and corrosion resistant, making it ideal for both wet or dry use.

BRIGHT & WHITE

The 4W LED array provides a bright, white, even spread of light through the elegant hand-blown and pressed glass diffuser. Each light can also be fitted with a presence detection sensor, that triggers the light when people or animals are in close range, making it ideal for security use.

THE DEVIL'S IN THE DETAILS

1. 3 X POWER ACCESS PORTS

The SY-6 Bulkhead lighting range has power connection cable access at both rear, top, and bottom - choose the option that tickles your fancy.

2. MODULAR MOUNTING POINTS

End-lugs on the SY-6 range are designed to accommodate future clip-on accessories, extending the life of your lamp - that's a nod to sustainability, and style.

3. HAND PRESSED & BLOWN GLASS

With a thick, hand pressed and blown glass diffuser that features decorative ribs, and a Coughtrie brand mark, this is one stylish range of light fittings that refuse to blend in with the riff raff.

4. TIMELESS STYLING

The simple, oval shape of the SY-6 Bulkhead light fitting is elegant and timeless yet fits with a range of different settings.

5. HAND CAST ALUMINIUM CASING

The corrosion resistant aluminium casing of the SY-6 Bulkhead light fitting has been hand cast by skilled craft workers in Glasgow. We've been doing it for 80 years, and we don't intend to stop any time soon!

6. ULTRA EFFICIENT 4W LEDs

The 4W LED array generates a bright, white, modern flood of light that provides extra clarity where required. They're also guaranteed for 50,000 hours, before they need to be replaced!

FINISH FABULOUSLY

The SY-6 can be finished with a number of different options, to suit your flights of fancy, from chip-resistant paint in a range of colours, to natural silver, finished with a clear, protective lacquer for a raw, industrial look.

Each light can also be anodised with a weathered bronze finish, for rustic, antique effect. The choice is endless. The choice is also yours.

And with our bespoke finishing service, you'll also be able to specify a unique RAL colour, for powder coating.

TECHNICAL INFORMATION

PRODUCT INFORMATION

Product Materials	Cast Aluminium Casing; Pressed And Blown Glass Diffuser; Sheet Aluminium Gear Tray; TPU Gasket; Silicone Gasket; Steel Screws; CNC Sheet Steel Flanges; LED Bulbs & Driver; Powder Coated Paint / Aluminium Anodising Finishing.
Product Dimensions	Length: 220mm; Width: 103mm; Depth: 118mm.
Product Weight	1000 grams.
Certification	CE. UKCA. BS EN60598-2-1.
IP Rating	IP65: Suitable for inside or outside use in wet weather environments. IP rated as “dust tight” and protected against water projected from a nozzle.

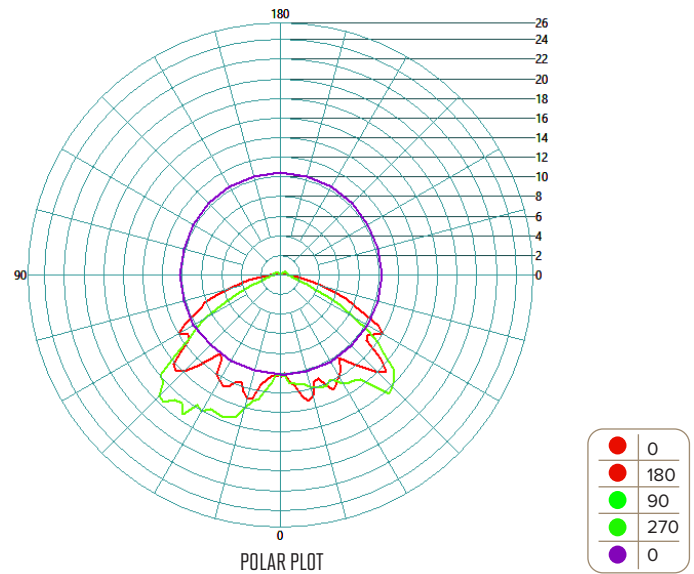

LUMINAIRE CHARACTERISTICS

LEDS	Variable
Driver	Constant Current
Working Temperature	-25C to 50C
Emergency Working Temperature	-5C to 50C
System Lumens	325lm
Efficacy	81.25lm/W
CRI	>80
CCT	4000K
Lifetime	50,000 hours

ELECTRICAL CHARACTERISTICS

Power	4W
Voltage	230V
Current	0.017A
