FAQS

Colours & Finishes

What colours can I get it in?

The cage along with the bulkhead can be purchased in any of our standard finishes or you can specify a custom RAL colour. Please enquire directly with our sales team.

Environment Of Use

Can it be used outside / in wet environments?

Yes, the light is IP65 rated.

Robustness

How strong is the cage?

The cage is hand formed from steel wire and welded to a laser cut steel base. It's very robust and rated to IK10.

Fitting - New

Can I purchase the cage on its own to fit on a recently purchased SP-10/12 Bulkhead?

Yes. We will be selling the cage separately and will provide the cage with fitting screws. Cage dimensions on its own: W: 178mm L: 341mm D: 90mm | 400g

Fitting - Old

Could I fit the cage on an original J&G Coughtrie SP-10/12 from the 1950s?

Yes, the cage can be fitted with new screws we'll supply.

Light Output

What is the light output?

The caged bulkhead light output and power requirements are the same as their respective LED or fluorescent lights without.

RELEASED: 08/02/2024

The cage along with the bulkhead can be purchased in any of our standard finishes or you can specify a custom RAL colour. Please enquire directly with our sales team.

Environment Of Use

Can it be used outside / in wet environments?

Yes, the light is IP65 rated.

Robustness

How strong is the cage?

The cage is hand formed from steel wire and welded to a laser cut steel base. It's very robust and rated to IK10.

Fitting - New

Can I purchase the cage on its own to fit on a recently purchased SY-6 Bulkhead?

Yes. We will also be selling the cage separately along with fitting screws. Cage dimensions on its own: W: 118mm L: 233mm D: 90mm | 200g

Fitting - Old

Could I fit the cage on an original J&G Coughtrie SY-6 from the 1950s?

Yes, the cage can be fitted with new screws we'll supply. Note it will sit higher on the flange than on the newly released SY-6.

Light Output

What is the light output? The caged bulkhead light output and power requirements are the same as their respective LED or fluorescent lights without.
